

### **Self-Screening Questionnaire for Students, Residents, Faculty and Staff**

This guidance is intended for self-screening at home prior to the start of the day. It is not intended for students, faculty or staff confirmed or suspected of having COVID-19, including persons under investigation. Any “YES” answers/findings are excluded from entering the clinic or administration buildings.

**1. *Are you currently experiencing any new or unusual symptoms that are NOT related to seasonal allergies or a pre-existing condition such as:***

- Fever ( $\geq 100.0$  F) or feeling feverish
- Chills or repeated shaking with chills
- Dry cough
- Shortness of breath or difficult breathing
- Fatigue and/or weakness
- Muscle or body aches
- Recent loss of taste or smell
- Recent onset of sore throat or headache
- Congestion, runny nose, sneezing, or watery eyes
- Nausea or vomiting
- Diarrhea

**2. *Are you caring for someone who is ill?***

- Any faculty or staff who are well but who have a sick family member at home with COVID-19 should notify their supervisor. Dental hygiene students, please notify/email Ms. Leigh Ann Wyatt. Dental students, notify/email Dr. Ernie Lacy and copy Ms. Kimberley Morgan-Thompson. Graduate students, notify/email your program director.

**3. *In the previous two weeks:***

- Have you been exposed to or in close contact with someone who is COVID-19 positive?
- Have you traveled to any regions known to have a high incidence of COVID-19?
- Have you been advised to self-quarantine because of exposure to someone with COVID-19?
- Visit a place where COVID-19 is spreading, such as a nursing home or jail?

**NOTE: Any student, grad student, faculty or staff who have symptoms of acute respiratory illness are recommended to notify either their supervisor, program director, Dr. Ernie Lacy or Ms. Wyatt (whoever is appropriate) and stay home until they have been free of fever for at least 24 hours.**
